

# MANAGING DIRECTOR

For over 150 years, Manx Gas has served the people of the Isle of Man, providing products and services to meet the ever-changing needs of our community. We are passionate about our responsibilities to our customers, our people and our environment.

Today Manx Gas provides a 24/7 service to more than 20,000 natural gas and LPG customers across the Island, and we invest heavily in the development of our assets to deliver continual improvement.

## The role

This is an exciting opportunity for an individual with the vision and drive to lead an evolving utility in the Isle of Man. You will be responsible for the day-to-day running of Manx Gas and creating the strategies and plans required to develop the business and take it forward. Focused and dynamic you will have excellent negotiation, communication and management skills and experience of developing strong personal contacts with key influencers.

A Chartered Engineer with a degree and relevant post-graduate management qualification, you will have a proven track record and at least five years' experience in energy and/or petro-chemical sectors at senior management or director level.

A highly competitive salary and benefits package will be offered to the successful candidate. A job description is available by email from: [energy@i-e-g.com](mailto:energy@i-e-g.com)

## To find out more

Please email your CV and letter explaining your reasons for applying to [energy@i-e-g.com](mailto:energy@i-e-g.com)

An online assessment will take place the week commencing 8 February, with interviews for short-listed candidates to follow from 16 to 19 February in Guernsey.

Closing date for applications: 5 February 2010.
